

50 SYNCOATED BREAKS

FOR

TROMBONE

Compiled and Arranged
By

LEW DAVIS

The Famous Trombonist
of Jack Hylton's Band

KEITH PROWSE & CO. LTD.
LONDON.

Introduction

"JAZZ BREAKS" which are now a necessity in the special "arrangements" of any successful dance orchestra, have hitherto been mostly left to the inventive powers of individual members of the orchestra, the result being usually of a more or less uncertain character.

Messrs. KEITH PROWSE & CO Ltd. however, with a wish to foresee and cater for the requirements of orchestral musicians, and realizing that all are not equally gifted with powers of improvisation, have obtained the services of a number of players who are pre-eminent in this particular branch, to write a series of JAZZ BREAKS in various keys for the following instruments:—

VIOLIN

- by **REG. BATTEN**
Renowned Leader
- of the SAVOY HAVANA BAND

TENOR BANJO

- by **DAVE THOMAS**
Celebrated Banjoist
- of the SAVOY HAVANA BAND

TROMBONE

- by **LEW DAVIS**
Famous Trombonist
of JACK HYLTON'S BAND

CYMBALS AND DRUMS

- by **ERIC LITTLE**
Celebrated Drummer
- of JACK HYLTON'S KIT-CAT BAND.

E♭ ALTO SAXOPHONE

- by **AL. STARITA**
Famous Saxophone Leader
- of the KIT-CAT BAND

B♭ TENOR SAXOPHONE

- by **RAY STARITA**
Celebrated Saxophonist
- of the PICCADILLY BAND

TRUMPET OR CORNET

- by **MAX GOLDBERG**
The Famous Trumpet Player
of the SAVOY HAVANA BAND

XYLOPHONE

- by **TEDDY BROWN**
Celebrated Xylophonist and Conductor
- of the CAFÉ DE PARIS BAND

PIANO

- by **BILLY MAYERL**
The Famous Pianist

The names of the composers, each a specialist on his particular instrument, are sufficient guarantee of the suitability, originality and effectiveness of their work.

The breaks are printed on separate leaves (one key to a page) so that they can be easily detached and used along with the music to be played, though the better way, would, of course, be to commit a number to memory: they would then serve for a pattern and stimulus to the inventive powers of the player.

Messrs. KEITH PROWSE & CO Ltd. have in preparation by the same composers a series of NOVELTY SOLOS for various instruments with orchestral accompaniments in dance rhythm, which in effect will be an extension and development of the "Break" idea.

AUTHOR'S FOREWORD

There are many musicians who either through lack of experience or natural inability, are unable to improvise. It is therefore, with pleasure that I have accepted the Publishers' invitation to write a book of "50 HOT SYNCOPATED BREAKS" for the Trombone, which will be found effective for introduction into dance numbers.

"Breaks" are mostly used in the middle of the chorus at the 15th and 16th bars, but they are also introduced with great effect at the end of a number as a second bar "Break", the band joining in at the end. It is best for the player to memorize his Breaks so that they may be quickly and readily used when necessary for variety etc.

A good idea in the present publication is the printing of the Breaks in loose leaf form, so that the musician can previously select the Break in the key required and place it on his rack ready for use.

All the syncopated Breaks which I have included in this book have been written by me and used for recording for HIS MASTER'S VOICE records and also for Music Hall performances and in the Ball Room.

To obtain the most effective result it is necessary for the player to carefully observe the accent and slur marks which I have carefully indicated.
